Verse 1:

We fight a battle
That cannot be seen
We're in the place
Where we have never been
We've seen the strongest warriors
Flee in fear
We take position
For our God is here

Verse 2:

Give up our armors
And lay down our shields
For in our weakness
He will be revealed
We drop all weapons
And then we take aim
We press on forward
In His mighty Name

So we sing Hallelujah
Our victory has come
We sing Hallelujah
For the One who's overcome
We sing Hallelujah

They bear their swords
We fight with slings and stones
Odds are against us
But what they don't know
We've wrested lions
We were rescued then
He made it happen
He will do it again

So we sing Hallelujah
Our victory has come
We sing Hallelujah
For the One who's overcome
We sing Hallelujah
