

BETTER IS ONE DAY

Verse 1:

Wasted so much time
Just trying to find
The kind of love the world
Could never provide
And I have lost myself
Just trying to be found
But in every turn
You are always around

Pre-Chorus:

And despite my sin and shame
You still call me by my name

Chorus:

I need not fight for Your love
I need not strive for Your grace
For You alone are enough
To You I lift my gaze
I need not chase down Your heart
I need not struggle to be heard
For You are never too far
I know You hear every word
Better is one day in Your presence
Than a thousand elsewhere

Verse 2:

There's no use to try
To earning your love
No amount of good
Could ever satisfy
Not even the gravest sin
Could ever change Your mind
For both in life and death
I'm Yours and You are mine

Pre-Chorus:

And despite my sin and shame
You still call me by my name

Chorus:

I need not fight for Your love
I need not strive for Your grace
For You alone are enough
To You I lift my gaze
I need not chase down Your heart
I need not struggle to be heard
For You are never too far
I know You hear every word
Better is one day in Your presence
Than a thousand elsewhere

Bridge 1: - (2X)

You are beside me, within me
Lord You go before me
And You know me, You see me
So why then should I flee

Bridge 2: - (2X)

From Your presence, Your mercy
That You freely give me
Lord remind me that I need
Nothing but You with me

Ending:

I need not fight for Your love
I need not strive for Your grace
For You alone are enough
To You I lift my gaze
I need not chase down Your heart
I need not struggle to be heard
For You are never too far
I know You hear every word
Better is one day in Your presence
Better is one day in Your presence
Than a thousand elsewhere
